*Passe-partout is only available for polytouch® interactive display 32

polytouch® PC-Boxes are very easy to mount with just 2 screws!

polytouch® PC-Boxes

Our plug & play polytouch® PC-Box can be easily and comfortably attached to the display with only two screws. Its single interface supports the display with power, video and touch signal. Thanks to this the device offers best service comfort and easy

maintenance. Depending on your performance requirements the scalable polytouch® PC-Box is available from Intel® Core™ i3 up to i7 & GPU.
